

RELOCATION SERVICES - ITER

Three companies offering relocation services have been selected by Agence ITER France (AIF) and the Welcome Office For International Companies (WOIC). Chosen for their experience and their strong knowledge of the ITER site surroundings, they propose effective solutions to find accommodation offers. They can also assist you with visas and immigration issues.

Any foreign companies planning to work on the ITER site or to set-up an activity in the region nearby can ask for their support.
